joining Christ in the city

>>>This course looks at the **rapidly changing urban environment** – it's issues and it's people – material, social and spiritual. The course involves interacting with the urban environment, observing ministry and exploring community.

>>This course is for anyone seeking to take seriously the urban world in which we live and **how the gospel of fullness of life in Christ takes shape** there – whether Manila, London, Glebe or St Kilda.

>1/2 of the world's population now live in cities and a rapidly **increasing percentage are poor**. What will Christian ministry look like in our cities?

DISCUSSION & REFLECTION

>>Foundations and values for urban ministry and working with the poor and marginalized

>>understanding the urban environment and ourselves biblically and sociologically

>>community development and empowerment

ISSUES include:

Homelessness
Indigenous issues
Gambling addiction
Homosexuality
